

Expert.ai Accelerator for Claims Automation

The Insurer Challenge

A highly-manual and language intensive process that requires collection, processing, and analysis of large amounts of diverse information. Manual validation of claims is both **slow** and **costly**.

The Solution

Expert.ai helps insurance teams to intelligently automate claims processes, applying human-like language understanding to **extraction** and **analysis** of medical claim data from claims forms and related documents including medical histories, appraisals, reports, receipts and invoices, findings on the amount of loss et

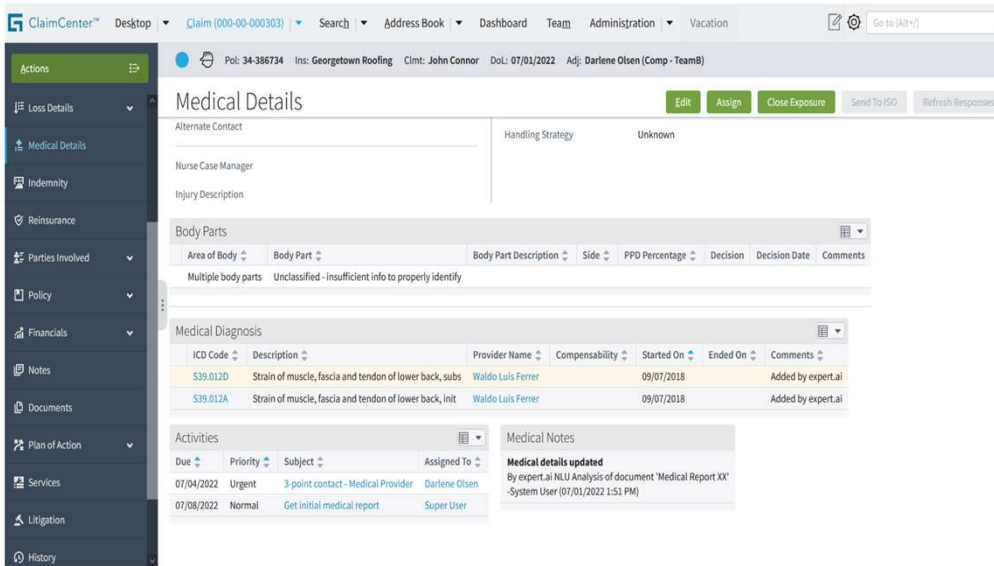

Solution Benefits

Expert.ai solution helps insurance teams turn language into data to accelerate and augment processes and let SMEs focus on high-value tasks that

Enables them to:

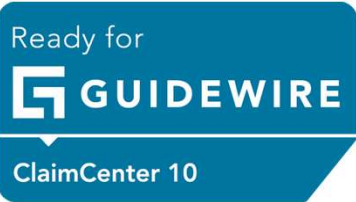

- Deliver claims reviews (40% faster)
- Reduce leakage (\$5M - per year)
- Reduce up to 90% process time
- Increase capacity (4X more documents)
- 85+% accuracy
- Process over 50 pages in seconds

Expert.ai Claims Automation Accelerator for ClaimCenter 10
